

# CSE 123 - Demo Script

## Smart Water Pitcher Base

Group 8

### 1 Template Section

**Presenter:** TODO

**Estimated Time:** TODO

*Script:*

add text here, can copy demo-script-q1 for example actions etc

### 2 Typical Usage

**Presenter:** TODO

**Estimated Time:** TODO

**Action:** Screen should show app and camera pointed at prototype.

*Script:*

add text here

screen shows current water lvl

**Action:** *Take out some water*

now it shows the new level now i'll completely empty it

**Action:** *Empty pitcher*

as you can see the water level updated and everyone in the group rcvd a notification to refill

**Action:** *Refill pitcher*

and now it shows that its full again

---

## 3 Provisioning

**Presenter:** TODO

**Estimated Time:** TODO

*Script:*

ROUGH OUTLINE, FIX GRAMMAR ADD MORE ETC

“When first purchasing product, users need to set up the device. they start by opening app and click setup.”

**Action:** *Open setup page on mobile app*

“First scan qr code that comes with the device to connect to it over bluetooth.”

**Action:** *Scan QR code*

“Next enter the home wifi name and password, which will be sent to the device along with an auth token so it can communicate with the server.”

**Action:** *Enter WiFi credentials*

“Once it is connected, users can create a group and invite other users to it, so they can all see the water level and get notifications when it needs to be refilled.”

## 4 Joining a Group

**Presenter:** TODO

**Estimated Time:** TODO

*Script:*

add text here

## 5 Calibration

**Presenter:** TODO

**Estimated Time:** TODO

*Script:*

add text here

---

## 6 Webpage

**Presenter:** TODO

**Estimated Time:** TODO

**Action:** Screen should show the webpage open in a browser.

*Script:*

“Alongside the mobile app, we also have a webpage that users can access from the browser.”

**Action:** *Open the webpage and sign in*

“The webpage is more focused on account management rather than day-to-day monitoring. Once signed in, users land on their account page where they can see all the groups they belong to and all the devices linked to their account.”

**Action:** *Point out the My Groups and My Devices sections*

“This is where users go to manage group membership, rename devices, or remove a device they no longer own, things that are easier to do on a full-size screen than on a phone.”

**Action:** *Switch to the Setup Guide panel*

“The webpage also hosts our setup guide, so a new user can walk through provisioning instructions on their laptop while they have the device and phone in hand.”
